#### 1. Policy

a. Administrative selection boards, such as command selection, postgraduate school selection, etc., may receive information useful to their deliberations from parties other than the officer being considered, providing that such information is endorsed by the party involved to indicate the officer's awareness of the information.

b. This provision is intended to protect the rights of individuals by precluding the possibility of material which might be considered adverse or derogatory from being seen by a selection board without the individual's knowledge or opportunity for comment.

2. Recorders and Board Sponsors. Recorders and Board Sponsors are responsible for ensuring only correspondence which is in consonance with the provision of this article is presented to selection boards.
